VSH SudoXPress Carbon galvanized tube 12x1.2 (l=6m)

Image

Dimensions

6205144

Type C1459

VSH SudoXPress galvanized tubes are thin-walled precision tubes manufactured in accordance with EN 10305-3 from a special kind of steel that has a very low carbon content. The resulting product is very easy to bend. The tubes are also tested for leaks in accordance with ISO 10893-2:2011, so that all tubes are guaranteed to be leak-free.

- available in 3m and 6m
- dimensions 12-108mm
- red end caps
- red marking

PRODUCT FEATURES

Material	Steel	Outer pipe diameter	12 Millimetre
Material quality	St 34.2 (1.0034)	Wall thickness	1.2 Millimetre
Seamless	✖		
Nominal diameter	DN 10		
Surface protection	Galvanic/electrolytic zinc plated		
Type approval according to BBR/EKS	✖
