

CERTIFICATE

(translation: only for information)

This document certifies that the material:

**Ball Valves VSH XPress Full Flow
(version Stainless Steel, colour code green)
produced by BROEN A/S
Skovvej 30
DK - 5610 Assens**

has been submitted to acceptance of Belgaqua
by the company BROEN A/S

and has been declared conform to the specifications of the acceptance procedure of materials in contact with drinking water and water used for the production of drinking water "HYDROCHECK", approved by the Board of Management of Belgaqua on May 01, 2016.

The Ball Valves VSH XPress Stainless Steel Body include the following materials in contact with drinking water, fulfilling the requirements of the Hydrocheck procedure:

- Body, Ball and Spindle SS EN1.4404;
- O-Rings EPDM EP11/7/4 black produced by Superior Seals.
- Seat PTFE G500 produced by Guarniflon SpA.

This document may not be communicated to third parties nor reproduced unless in the full and integral version.

The acceptance of the material is valid for an undetermined duration starting at the date of signature and for materials which are identical to those submitted for testing. The continued validity will be confirmed by mention of the references of the product into the Directory of accepted materials in contact with drinking water, edited yearly by BELGAQUA and on www.belgaqua.be.

Established in one original copy in French,
on October 25, 2019

Chr. LEGROS
Director of BELGAQUA

A handwritten signature in blue ink, appearing to read "Chr. Legros", written over the printed name and title.
